Ferrari New Power

PRE OWNED WARRANTY EXCLUSIVE RETAIL

To preserve the value of your car, Ferrari has created an exclusive warranty formula that extends the normal coverage offered by the Ferrari manufacturer's warranty to up to a vehicle age of twelve years.

Choosing the New Power formula maximises the value of your used vehicle.

Your preferred dealer will be happy to illustrate the New Power Programme to you in more detail and provide you with prices.

Standard and Extended Warranty Coverage (years)

Manufactures's warranty	Extended	Extended	NEW POWER
Manufactures's warranty	Extended	NEW POWER	NEW POWER
Manufactures's warranty	NEW POWER	NEW POWER	NEW POWER

Advantages

The New Power formula offers numerous advantages:

- the possibility of extending warranty coverage for your car up to its 12th year of life;
- replacement of spare parts and repair work covered by New Power formula;
- all work is carried out within the Authorised Ferrari Service Network by highly specialised technicians trained by Ferrari itself;
- improved residual value of the vehicle over time;
- coverage will continue to be valid even after sale of the vehicle to a new owner, provided that the vehicle itself meets the quality requisites specified by Ferrari;
- the roadside recovery service (in countries where available) will be close at hand whenever you need it.

Requirements

Here's what you need to qualify for the New Power warranty:

- the vehicle must be inspected by the Ferrari Authorised Network to certify compliance with the quality requisites specified by Ferrari and verify the traceability of its service history: services, routine and special maintenance;
- vehicle mileage must not exceed 90,000 km;
- the vehicle must not have been involved in a serious accident, been tampered with, been stolen or taken part in competitions or races;
- the vehicle must not have been used for long or short term rental by a specialised car hire company.

Subscribing to the New Power warranty programme is easy. The Ferrari Authorised Service centres will be happy to explain the subscription process for the programme to you.

Warranty Extension

The first important step towards taking even greater care of your Ferrari.

Ferrari offers you the chance to extend the warranty period by a further 12 or 24 months once the manufacturer's warranty expires.

The 4th year extended warranty or 4th + 5th extended warranty may be purchased at the time of purchasing the vehicle and/or up to 30 days before the expiry date of the manufacturer's warranty.

The 4th year extended warranty and 4th + 5th extended warranty offer the same advantages and coverage as the manufacturer's warranty.

New Power

New Power is the Ferrari extended warranty formula specifically for vehicles that have exceeded the coverage period of the original manufacturer's warranty.

The New Power extended warranty covers the following components:

- engine;
- transmission;
- suspension;
- steering;
- electrical system.

Parts covered by the New Power extended warranty in detail:

- **Engine:** crankcase and all internal components thereof, cylinder heads and valvetrain, oil radiators, head gaskets, oil sump and oil pump, variable valve timing adjusters, solenoid valve (oil seals and oil leaks in general not covered), ionising ECU.
- **Ignition/Injection systems:** Oxygen sensors, secondary air system (secondary air system pump and valves only).
- **Mechanical gearbox/F1 gearbox:** gearbox casing and differential housings, including all internal components.
- **F1 Power Unit:** electric pump, valves; actuator, ECU, selected and engaged gear sensor (oil seals and oil leaks in general not covered).
- **DCT gearbox:** gearbox and all internal components, ECU (oil seals and oil leaks in general not covered).

- **Power Transmission Unit:** ECU; clutch (rubber gaiters excluded). PTU: all internal components (oil seals and oil leaks in general not covered).
- **Suspension and steering:** complete steering box, suspension arm joints, power steering pump (excluding drive belt), toe-in tie-rods, ECU for controls on steering wheel (oil seals and oil leaks in general not covered).
- **Cooling system:** water pumps, fans (leaks in general not covered).
- **Air conditioning/heating:** AC system control devices, AC compressor and climate control ECU.

- **Electrical system:** alternator, starter motor, ignition coil, engine ECU, transmission ECU, crankshaft sensor, camshaft sensor, power window motors.
- **Fuel and induction system:** injectors, throttle bodies, air flow sensor, intake manifold, pressure regulator, temperature sensors, fuel pipes, fuel pumps.
- **Brake system:** hydraulic brake pump, brake pressure regulator and servo.
- **Bodywork:** RHT roof function (wear, bodywork and paint defects, seals and water infiltration in general not covered).

Labour relative to the removal/installation and replacement of the aforementioned components.

For the condition in detail, see the New Power Warranty contract, which is available from the Official Ferrari Network.
